Instructions to Reviewers:

1. All individuals reviewing this application are required under 35 USC 181 to sign and date this form regardless of whether they are making a security order recommendation.

Time for Completion of Review:

Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a security order.

The USPTO publishes patent applications at 18 months from the date of filing a patent application. The USPTO will delay the publication of a patent application if it is determined that the application contains information that is a defense agency trade secret under 35 USC 181 and a security order has been made available to the defense agency under 35 USC 181 and a security order has been made available to the defense agency. This application will not be published for publication 6 months from the filing date or 90 days from the date of referral to the defense agency, whichever is later, unless a response is provided to the USPTO regarding the application recommendation as to the imposition of a security order.
